Notes

1. This section is acephalous. [TGH]

2. The gloss seems to have been repeated, more legibly, at the end of the line. [TGH]

3. Rothwell suggests that 'escarie' is an incorrect form of 'escarbot'. [TGH]
4. The scribe appears to have worked around an earlier erasure in the MS. [ETFM]
5. The gloss above muiches is unreadable due to wear. [ETFM]
6. The first part of the gloss is unreadable. [TGH]
